

Don't Waste Food Poster

Amazing Fact

Almost half of the world's food is thrown away.

Challenge

Talk to a partner about what could be done with leftover food, rather than throwing it in the bin.

Design a poster to encourage people not to throw food away.

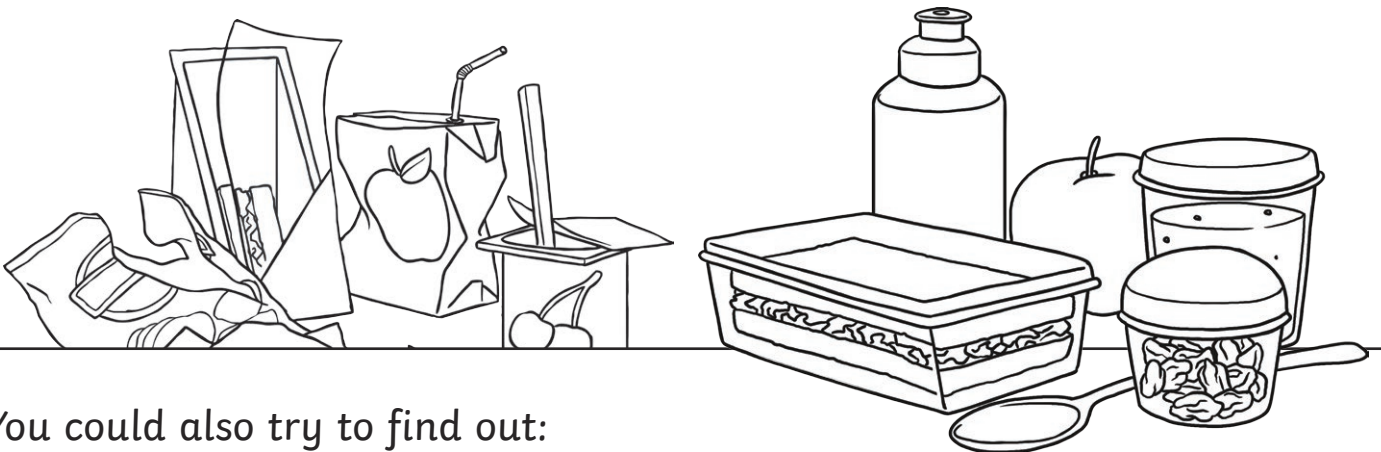

The poster could remind people to buy less food, use it before it goes off or feed vegetable peelings to animals like rabbits and guinea pigs.

Include an example of what they could do with the unwanted food, instead of throwing it into the bin.

Useful Words

don't	throw	waste	food	save
reuse	compost	buy	shop	fridge

Make your poster bright, simple and attention-grabbing!

You could also try to find out:

- which countries have laws about leftover food;
- about restaurants which use food that would otherwise be wasted;
- how sell-by dates are worked out.
